

Notice #07/2020

Lifejackets

The ClubSwan 36 Class Rules (C.5.2(a)) require that all boats be equipped with an ISO 12402-3 (Level 150 or equivalent) for each crew member. These lifejackets are mandatory to be on-board at all times whilst racing, for use in an emergency.

This requirement does not prevent crews from choosing to wear alternative Personal Buoyancy Aids however these are in addition, not alternatives to the Level 150 lifejackets.

The ClubSwan 36 Class Rules do not prescribe when lifejackets should be worn, it is the responsibility of the skipper to decide.
