

Notice #01/2023

Spinnaker Halyard Deflector Line

With the removal of the Heavy Spinnaker from the CS36 Class Sail Inventory the spinnaker halyard deflector line listed in Appendix D Running Rigging is no longer required.

This item is now optional, and it is permitted to remove the spinnaker halyard deflector line.

Digital Compasses

Class Rule C.5.2, (b) (7) details requirements of self-contained digital compasses.

It is accepted that this rule had not been updated to reflect the additional functions provided by the updated specification to the units commonly in use.

The additional functions of Heel Angle and Data Logging are already permitted through the Garmin equipment specified in Appendix E of the CS36 Class Rules and all this information is available to the fleet using the Sailmon Max Mini Tracker & App that has been provided to all boats. The CS36 Class Authority permit the use of these units.

The permitted units are:

Sailmon Max

Vakaros Atlas 2

Velocitek Pro Start

Alternative units with equivalent functions will also be permitted.
