

CLUBSWAN 36

Notice #04/2024

Keel Fin to Bulb Joint

Following the bulb weigh reduction, the CS36 Class Rules have been amended to simplify this joint and reduced the required maintenance to maintain this joint.

C.8.1

- (i) The joint between the keel fin and bulb shall may be faired with a sealant radius (Sikaflex or equivalent) with a maximum width of 15mm. No additional fairing or filling pieces are permitted.
