

Notice #02/2025

ClubSwan 50 Spinnaker Cloth Minimum Weight

The ClubSwan 50 Class Rule G.5.1(b) specifies a minimum cloth weight of 36gsm shall apply for any part of the body of the sail.

It has been identified that due to manufacturing tolerances batches of cloth designed to be 36gsm may slightly deviate the specified weight. Based on this spinnaker cloth which is shown by the spinnaker cloth manufacturer to have a range of 35 to 37gsm will be considered to meet the requirement of the 36gsm specified in ClubSwan 50 Class Rule G.5.1(b).
